

# SEMINAR

## Protection and transfer of research outputs

3

FEBRUARY

11.30  
13.30

Auditorio  
IMDEA  
Energía

INSCRIPCIÓN

The goal is sharing the practical experience of IMDEA Energy research units on successful cases of protecting research outputs applying for patents and exploiting them in order to replicate successful models in other research topics.

Event aimed at all Institute staff interested in the protection and exploitation of industrial and intellectual property obtained from research work.

**11:30 – 11:40** Opening – David Serrano. Session Chair: Félix Marín.

**11:40 – 12:00** How to transfer our research outputs: Exploitation strategy and methodology – Jesús Palma

**12:00 – 12:20** Photoactivated Processes Unit Experience – Víctor de la Peña

**12:20 – 13:10** Electrochemical Processes Unit Experience – Cases:

- Unbound – Rebeca Marcilla
- E-22 – Jesús Palma
- B5Tec – Jesús Palma
- HFC – Jesús Palma

**13:10 – 13:20** Lessons learned – Jesús Palma, Rebeca Marcilla and Víctor de la Peña

**13:20 – 13:30** Questions and discussions with all attendees
